

## PACK-MAID® Manual Packing Cutter

The Manual Packing Cutter will save time, money and braided packing while providing precision square and butt cuts for the highest quality packing installations. The Manual Packing Cutter will cut a number of different packings:

Acryl-Rayon-Fiberglass Yarn Packing – Pure Teflon Fiber Packing – Phonolic Yarn Packing – Cotton Yarn Packing, Carbon Yarn Packing – GFO Yarn Packing – Lead Foil Packing.

The spring loaded adjustable guide fence locks into 90 and 45 degree positions for fast accurate cuts every time. To change guide fence position- just lift and turn. Max dimension of 90° cut = 25x25mm / of 45° cut 16x16mm.

The handy two stage Pocket Sharpener can help keep your Manual Packing Cutter Blade razor sharp at all times.

To use, simply position fingers behind the finger guard, hold the cutter blade at a 90 degree angle to the sharpener and pull the blade back lightly in straight, even strokes. Begin with the coarse ceramic rods to remove blade imperfections. Flip sharpener over to the fine ceramic rods for final honing of the blade.
